

**Selecting the best
origins for 100 years**

walter matter - the coffee & cocoa specialists

Founded in 1920, walter matter s.a. is an independent family company based in Geneva. For the past 100 years, we have carefully selected and sourced premium coffee and cocoa beans from the best origins.

We are passionate about what we do. For us, coffee and cocoa are much more than mere commodities traded virtually on a computer screen. They are living and noble products that must be respected and treated with care, from harvesting to warehousing, by way of on-site tasting, packaging and transport, so that you can in turn bring forth all their flavour and aromas.

This is why we believe in authentic human relationships patiently built over the years, both with the producers and with our clients.

Our reputation for quality service and reliability has been built bag after bag, and one satisfied customer after the other.

Because mutual trust cannot be decreed. It has to be earned.

ABOUT WALTER MATTER

“ 100 years ago, my grandfather started to work for the Haitian Coffee & Cocoa Import company based in Geneva. Then in 1943, he took it over and rebranded it with his name : Walter Matter.

For over 3 generations, we have strived to build long-lasting relationships with all our stakeholders. Today, we are a leading merchant in fine cocoa and coffee beans, known for our strong commitment to quality and dedication to our clients and suppliers.

As a family business, we measure time in generations and not in years. This is why we are committed to grow our business responsibly. We encourage sustainable farming and we assist our growers in implementing best practices. ”

SUSTAINABILITY

“Sustainability is about respect. Respecting producers, respecting consumers and respecting our planet.”

ACTING RESPONSIBLY

As a family business, we give great importance to human relations based on trust and mutual respect.

Respect for our customers, of course, but also for our suppliers, whom we have always regarded as true partners.

This is why we encourage and support growers in the implementation of ethical and sustainable production methods, which are environmentally friendly but also protect the health of both workers and consumers. As these crops are sold at a premium, this allows smallholder farmers to receive a fair income for their work.

We have obtained several independent and recognized labels and certifications that acknowledge this commitment and the results achieved.

CAFEMA INTERNATIONAL

To put this commitment into practice, 50 years ago we set up a specialist company, CaféMA international s.a., which is committed to sustainable agricultural production and improving conditions for growers.

CaféMA coffees are sourced solely from smallholders farmers cooperatives.

Moreover, CaféMA acts as a partner to build and fund FLO-Fairtrade projects and then markets them worldwide.

Facts & Figures

- Created in 1970, caféMA has 50 years experience in trading responsibly
- CaféMA exclusively handles FLO-Fairtrade certified coffee and cocoa
- CaféMA represents about 8% of the FLO-Fairtrade volume traded worldwide
